

CENTRAL FEEDS

*The new season is fast approaching and we are keen to discuss your contracting requirements and where possible help you **keep costs down**. Whether it is baling, cultivation, planting or feed sales get in touch with Ken to discuss the season ahead.*

We've worked hard on health and safety this winter and although it can be looked upon negatively it's important to us to keep our staff and clients safe.

Attached is an information form to help identify your farm's hazards and minimise risk. If you have any questions or concerns or need help filling it in contact Ken. Having shared information with your contractors is part of the collaborative approach WorkSafe are requiring businesses to take.

New This Season—Krone HD2 Big Square Baler

- Improved bale density especially in straw
- Up to 25% more straw in every bale
- Fewer bale numbers
- Get more bales in your shed
- Less bales to cart
- All this means less cost

NEWS FLASH

New This Season - He-Va Cultivator for cultivation, discing, double levelling and double rolling with the option of ripping. All this means compacted winter feed ground **ready for planting all in one pass** saving you money.

Our new roller drill is perfect for planting grass, kale, rape and other small seeds into cultivated soil. Set up behind our cultivator and press it gives maximum efficiency in one pass. **Double levelling and double rolling to ensure a fine firm seed bed.**

Don't forget our other ground work services:

- Beet Planting
- Ploughing
- Direct Drilling
- Conventional Drilling
- Fodder Beet Harvesting

Contact Ken 027 268 4299 for an on-farm visit to discuss your needs.

Also Operating This Season

- 4 Rakes
- 4 Big Square Balers
- 2 Round Balers
- Bale Carrier
- 3 Tube Wrappers
- Trucks and Trailers
- 15m Grass Tedder
- JCB Tele Handlers
- 2 Triple Mowers—one brand new set with conditioners
- Truck and trailers also available for general cartage.

Modern machinery, experienced operators, scale, capacity and flexibility ensure a high level of customer service. Ring Ken 027 268 4299 for a sharp price on all your baling requirements.

We are now a member and **Registered Contractor** with RCNZ. This demonstrates our commitment to providing the best possible service to our clients and ensures we are meeting statutory and regulatory responsibilities relating to employment, health and safety, Land Transport and other areas.

We have most of our team sorted for the coming season. **Great news**—most are either current full timers or staff returning from previous seasons. This is great news for everyone as most staff members will be familiar with our equipment and the location and layout of your farm.

You may have met James Francis last year when he took on a new role helping to manage the day to day operations of Central Feeds. **James is a local Mid-Canterbury farmers son and will have a good understanding of what's going on each week during the coming season. Do you want phone number in here?**

We buy and sell top quality locally grown feeds and still have limited amounts of **baleage, straw and harvested fodder beet for sale**. Feed prices are easing so now is a good time to buy—ring Andy 021 360 052.

Don't forget to get in touch if you are considering buying standing grass in the spring. Feed purchased early has proven to be the best quality and often the best price.

A hand-drawn smiley face with a simple circular outline and a dot for a nose. Below it, the words "Thank you!" are written in a large, cursive, black font.

Thank you for your support over the last season. We look forward to working with all again this season.

Ken Caird - Manager - 027 268 4299

Andy Cunningham - Feed Sales - 021 360 052
